**J&L 3.0 Oil Separator (2013-2019 Explorer Sport EcoBoost V6 Passenger Side) #3022P
Installation Instructions**

Install video is available by visiting our website www.JLosc.com and searching 3022P

Please review complete instructions prior to installing.

Step#	
1	Verify you have all of the following parts included in the kit: (1) J&L Oil Separator, (1) Mounting bracket, (2) Fine thread machine screws, (2) 1/2" hoses, (2) PCV connectors
2	Gather all of the following tools needed for the installation: 13mm Socket and ratchet, Phillips screwdriver
3	Remove engine cover by removing oil fill cap and pulling up on the cover. Remove factory PCV line by pulling tabs and pulling it off of the engine.
4	
5	Locate 13mm bolt that holds A/C line to shock tower, remove bolt. Install J&L Bracket in the same location and reinstall bolt. Tip: Notice the ground strap orientation in the photo below, you will need to do the same so the oil separator bracket will sit straight up. 

6 Install J&L can onto J&L bracket using the two supplied screws, the J&L Logo should be facing towards the front of the vehicle for proper hose routing.

The 90-degree fitting will go over the A/C line and under the small wire harness to the valve cover, the straight fitting will route under the large A/C line to the intake manifold.

To properly clean the filter in the Oil Separator, spray any degreaser or solvent through it and let it air dry. Clean it every 10,000 miles.

Thank you for your business. If you have any questions, please e-mail info@JLosc.com or call 757-842-6497. Our hours are Monday-Friday. 8:00am – 4:30pm Eastern Time.
